

International Scientific Conference

Engineering and Natural Sciences for a Sustainable and Resilient Future

Lietuvos inžinerijos kolegija Higher education institution, invites researchers, academics, applied science practitioners, lecturers of higher education institutions, students of all study cycles, stakeholders and other interested participants to take part in the International Scientific Conference on Engineering and Natural Sciences for a Sustainable and Resilient Future, which will be held on 7 May 2026.

The conference will be organised in a hybrid format:

- Plenary session – on-site at the Faculty of Environmental Engineering, Lithuanian Engineering College (Liepų al. 1, Girionys, Kaunas district, Lithuania)
- Section sessions – online via the Zoom platform
- Participation format: on-site or online
- Presentation duration: up to 10 minutes

Important dates

- 20 April 2026 – registration deadline
- 30 April 2026 – confirmation of participation
- 7 May 2026 – conference day

Registration deadline:

- 20 April 2026
- All participants will receive an electronic certificate of participation.
- Participation is free of charge.
- Conference languages: English, Lithuanian

Conference thematic areas (including but not limited to):

A. Natural and Environmental Systems

- Natural and Environmental Sciences
- Climate Change, Ecosystem Services and Resilience
- Land Use, Forestry, Agriculture and Water Management

B. Engineering and Applied Technologies

- Engineering Sciences and Technologies
- Civil, Water and Infrastructure Engineering
- Smart Technologies, Digitalisation and Applied Innovation

C. Sustainability, Management and Education

- Environmental Engineering and Environmental Management in education
- Sustainable Development and Circular Economy
- Engineering Education, Applied Research Methods and Case Studies

Student Scientific Section

A dedicated ***Student Scientific Section*** will be organised for Bachelor's and Master's students. Students are invited to present: results of Bachelor's or Master's theses, applied research projects or pilot studies conducted together with supervisors.

Best student presentations may be recommended for further development into joint publications with supervisors.

Publication opportunity

Authors of conference presentations are invited to submit a full paper corresponding to the presentation topic. Manuscripts submitted for publication will be reviewed by the ***Conference Scientific Committee***. Papers recommended by the Scientific Committee and ***successfully passing the peer-review process***, in accordance with the journal's requirements, ***may be published*** in the scientific journal Engineering and Educational Technologies, published by (LIK). Publication is optional and subject to scientific quality, relevance, and compliance with the journal's scope and standards.

For any questions related to the conference, please contact: edita.abalikstiene@lik.tech, questions regarding to publications, please contact vilda.grybauskiene@lik.tech
